Rhino Of Florida
5625 Craindale Drive
Orlando, FL 32819

Attn: Bill Parish

Dear Bill,

It has been over a year since we installed the Rhino Wet Waste Interceptor System in the Marriott Marquis in downtown Atlanta. Since that time the Rhino has eliminated many of the problems associated with the management of the Grease Traps and drain lines at the hotel. At the Marriott we strive to operate the hotel with the environment in mind and the Rhino System fits into our "Green Effort" quite well.

The simple effectiveness of the Rhino System has allowed the hotel to dramatically lower our solid return to the Atlanta water system and has helped to alleviate problems caused by those solids in our drain pipe system. Further, due to ease of operation, our staff had no problem working the Rhino into our daily maintenance schedule.

I feel the Rhino System to be a valuable tool in our F.O.G. program and would recommend it to any of my associates in the Food Service Industry.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Bob Rawlings". The signature is fluid and cursive, with a long horizontal line extending to the right.

Bob Rawlings
